Lab 05 — Create the Launch Deck and Campaign Brief

Topic 02 · Connectors, Skills and Plugins

THE COURSE SCENARIO · THE LUMO COLD KOPI LAUNCH

The situation. It is late October 2026. Lumo Kopi Co. launches Lumo Cold Kopi, its first ready-to-drink canned kopi, in Singapore on 1 December — six weeks away — and in Kuala Lumpur in January. The marketing team is small, the budget is S$60,000, and nothing has been produced yet: no research, no deck, no posts, no video.

Your role. You are the Lumo marketing team. Instead of juggling a dozen separate chats, you run the whole launch from one Claude Project in Cowork: its instructions, brand kit and working folder are set up once, and every task you start inside it already knows the brand.

The mission. By the end of the day the project holds everything the launch needs — verified market research, a dashboard, a deck and brief, a brand-voice skill, two weeks of social posts, a launch video — and scheduled tasks that keep it moving while you are away.

Scenario

The launch team meets on Friday and needs two things: a short deck for the room and a campaign brief everyone can work from. You ask the project for both. Claude builds the deck in Slides and the brief in Docs, choosing its built-in skills on its own, using the numbers from your research and dashboard. You check every figure, then download the deck as PowerPoint.

Objective

By the end of this lab you can produce a launch deck in Slides and a campaign brief in Docs from the project's research.

You will build

An eight-slide launch deck in Slides (downloaded as .pptx) and a campaign brief in Docs.

Tools: Claude Projects, Slides, Docs, built-in skills

In the project

Instructions — HOW: Uses: follow the brand guidelines for anything customer-facing.

Context — WHAT: Uses: the brand kit, for the name, tagline, price and claims.

Folder — WHERE: Uses: lumo-research-brief.docx from Lab 2; save the downloaded .pptx here.

Scheduled — WHEN: Not used — runs when you send the prompt.

Data files

None — this lab works from what the project already holds.

Lab folder on GitHub: labs/lab-05-launch-deck-and-brief

Before you start

Note: You do not name a skill. Ask for a deck and a document; Claude picks the format and the built-in skill.

Steps and prompts — Build the launch deck and campaign brief

Each prompt sits under the step that sends it. Copy it from the box, or with one click from the Lab Prompts page: https://tertiarycourses.github.io/C1382-Claude-AI-Masterclass/prompts/

1. **In the project, send the lab prompt.**
   No attachments: the research brief, the dashboard data and the brand kit are all already in the project.

LAB 05 · PROMPT · COPY INTO CLAUDE

```
Using our research brief, the Market Insights dashboard and the
brand kit, create two things for Friday's launch meeting.

1. A launch deck in Slides, eight slides:
   1 Title - Lumo Cold Kopi: Kopi, Chilled Right
   2 The opportunity - the three survey numbers that matter most
   3 Who we are for - 25-34s in Singapore, with the evidence
   4 Competitors - a price ladder chart with Lumo highlighted
   5 Where they find us - a discovery channel chart
   6 The campaign - message, channels and dates
   7 Budget - the S$60,000 split, noting the two open questions
   8 Next steps and owners

   Use the Lumo brand colours. Real charts, not pictures of charts.

2. A campaign brief in Docs: objective, audience, key message,
   proof points, channels, budget, timeline, KPIs, and a "claims
   we must not make" section.

Every number must come from the research brief or the dashboard.
List the source of each number at the end of the brief.
```

2. Open the deck when it appears and page through all eight slides.
   Check the charts are real charts — click one; a real chart has editable data behind it.
3. Check slide 2 and slide 4 against your research.
   62% likely to buy, 74% among 25-34s, Instagram 34%; a price ladder from S$3.20 to S$5.60 with Lumo at S$3.90.
4. Check slide 7.
   The S$60,000 split should carry the two open questions from Lab 4 — Instagram and Influencers — not quietly pick one figure.
5. Open the campaign brief in Docs and read the "claims we must not make" section.
   It should rule out "healthy" and any claim the product sheet does not support. This section protects every post you write later.
6. Ask for one change to each, for example: Shorten slide 6 to three bullets.
   Slides and Docs are edited in place by conversation, the same way as an artefact.
7. Download the deck as PowerPoint and open it.
   The download is the file you take into the meeting — check the charts survived.

Check

DONE WHEN The deck has eight slides in the Lumo colours, with real charts for the price ladder and the discovery channels, the survey figures 62%, 74% and 34%, and a budget slide that shows S$60,000 with the Instagram and Influencers lines marked as open questions. The campaign brief in Docs has all nine sections, including "claims we must not make", and lists a source for every number. The deck opens in PowerPoint with its charts intact.

Use only the supplied mock data and your own test accounts. Never put real customer, personal or confidential data into a training exercise, and send lab emails to yourself rather than to a real recipient.
