DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1.0	15 September 2026	Initial release.	Dr. Alfred Ang
2.0	15 September 2026	Finance task automation scenarios.	Dr. Alfred Ang
2.1	16 September 2026	Eight finance labs with mock data and skills.	Dr. Alfred Ang
3.0	17 September 2026	Rebuilt on the Claude Style design with three topics and six labs on one fictitious finance firm; prompts added to the slides, Learner Guide and labs.	Dr. Alfred Ang
3.1	17 September 2026	Added an invoice-processing first lab, the context window section, the skill lifecycle and the two About the Trainer slides.	Dr. Alfred Ang
3.2	18 September 2026	Restructured to ten labs: connectors, a built-in skill board deck, two learner-written skills, a Claude Project and a plugin.	Dr. Alfred Ang
4.0	18 September 2026	First stable release of the ten-lab finance course.	Dr. Alfred Ang
4.1	18 September 2026	Lab 4: recovery step for the Google Drive connector's "insufficient scope" error.	Dr. Alfred Ang
4.2	18 September 2026	Moved the Skills vs. Plugins diagram to sit immediately before the plugin lab.	Dr. Alfred Ang
5.0	27 October 2026	Renamed Claude AI Masterclass and rebuilt for marketing teams on the redesigned Claude Projects: one fictitious brand launch (Lumo Kopi Co.) run in a single project across ten labs, with a lead agent and parallel threads, Live Artefacts, Drive and Gmail, Slides and Docs, skills, plugins and mods, social posts, a launch video and scheduled tasks. Lab folders now hold only the prompt PDF and data; full instructions are in the Learner Guide and every prompt is on a copy-ready prompts page. Trainer profile adds the Claude Certified Associate certification.	Dr. Alfred Ang
5.1	27 October 2026	Issued in two editions from one source. The Classic Projects Edition teaches Projects as most accounts show them today — Instructions, Context, Folder and Scheduled panels, with parallel tasks started by the learner and a project memory file — and is the edition distributed to learners. The Threads Edition keeps the redesigned Projects with a lead agent and parallel threads. The prompts page adds a lab index and links the two editions; the AI history slide follows the Agentic AI Applications with Claude Code deck.	Dr. Alfred Ang

Course Information

Course Title	Claude AI Masterclass
Edition	Threads Edition
Course Code	C1382
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	1 day · 7.5 instructional hours per day (7.5 hours)
Daily Timing	9:00 am – 6:00 pm (1-hour lunch; tea breaks within training time)
Hands-on Labs	10 labs · 315 of the 540 scheduled minutes (58%) are hands-on lab time
Mode	Instructor-led, hands-on practical labs
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Set up a Claude Project with a goal, instructions, context and memory, and explain how its lead agent splits work into parallel threads.
- LO2: Run multi-subject market research as parallel threads and consolidate it into one verified research brief.
- LO3: Build, refine, save and download a Live Artefact dashboard from supplied research data.
- LO4: Connect Google Drive and Gmail so Claude reads campaign files and sends an approved summary.
- LO5: Produce a launch deck and a campaign brief with Claude's Slides and Docs, using built-in skills.
- LO6: Capture a brand voice as an Agent Skill with /skill-creator, and install and use a marketing plugin.
- LO7: Create a two-week, multi-platform set of social media posts in parallel threads using the brand-voice skill.
- LO8: Produce a short vertical launch video from a script, storyboard and supplied brand assets.
- LO9: Schedule recurring project tasks, maintain project memory and review thread usage, keeping a human approval step.

Learning Reinforcement

- Each short theory block is followed immediately by the hands-on lab that applies it.
- All labs build on one continuous project, so each lab reuses and extends the work of the labs before it.
- Each lab ends with a check step in the Learner Guide so learners can confirm their own output against the source data.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- The day closes with a recap mapped back to the course learning outcomes.
