Lab 08 — Create Social Media Posts in Parallel Threads

Topic 03 · Content Production and Scheduled Work

THE COURSE SCENARIO · THE LUMO COLD KOPI LAUNCH

The situation. It is late October 2026. Lumo Kopi Co. launches Lumo Cold Kopi, its first ready-to-drink canned kopi, in Singapore on 1 December — six weeks away — and in Kuala Lumpur in January. The marketing team is small, the budget is S$60,000, and nothing has been produced yet: no research, no deck, no posts, no video.

Your role. You are the Lumo marketing team. Instead of juggling a dozen separate chats, you run the whole launch from one Claude Project. Its lead agent plans each job, starts parallel threads for the pieces, and brings the results back for you to check and approve.

The mission. By the end of the day the project holds everything the launch needs — verified market research, a dashboard, a deck and brief, a brand-voice skill, two weeks of social posts, a launch video — and scheduled tasks that keep it moving while you are away.

Scenario

Launch fortnight needs ten posts across Instagram, TikTok, LinkedIn and Facebook. Each platform has its own format, so you hand the job to the lead agent and let it start one thread per platform. Every thread loads lumo-brand-voice, drafts its posts to its platform's spec, and the lead agent merges them into one dated calendar that you check before anything is scheduled.

Objective

By the end of this lab you can produce a two-week, four-platform social calendar with one thread per channel.

You will build

social-calendar.csv with ten dated posts across four platforms, plus lumo-social-posts.docx with the full copy.

Tools: Claude Projects, lead agent and threads, Agent Skills

Data files

From this lab's **data/** folder in lab-08-social-posts-threads:

- `data/social-calendar-template.csv`

Lab folder on GitHub: labs-threads/lab-08-social-posts-threads

Before you start

Note: Attach social-calendar-template.csv from the Lab 08 data folder.

Steps and prompts — Draft two weeks of posts, one thread per platform

Each prompt sits under the step that sends it. Copy it from the box, or with one click from the Lab Prompts page: https://tertiarycourses.github.io/C1382-Claude-AI-Masterclass/prompts/threads/

1. **In the project, attach social-calendar-template.csv and send the lab prompt.**
   This is the same pattern as Lab 2 — one message, independent subjects — applied to production instead of research.

   LAB 08 · PROMPT · COPY INTO CLAUDE

   ```
   Create the launch social calendar for Lumo Cold Kopi: ten posts,
   one each weekday from Tuesday 1 December to Monday 14 December
   2026, using social-calendar-template.csv for the columns.

   Split the drafting into four threads, one per platform, and run
   them in parallel:
   - Instagram: 3 posts (carousel or Reel), caption with a hook in
     the first line, 3-5 hashtags.
   - TikTok: 3 posts, each a 15-second video script with a hook in
     the first 2 seconds and on-screen text.
   - LinkedIn: 2 posts in the founder's voice, the story behind the
     product, no more than 3 hashtags.
   - Facebook: 2 posts for community and the 12-pack offer.

   Every thread must use the lumo-brand-voice skill and our top
   content theme from the research. The 1 December launch-day
   post is an Instagram Reel; TikTok follows on 2 December.

   Then merge the threads into social-calendar.csv (date, platform,
   format, hook, copy, hashtags, visual idea, call to action) and
   lumo-social-posts.docx with the full copy. Report the brand-voice
   checklist result for every post, and list any post that failed.
   ```

2. Watch the lead agent start the four platform threads.
   Each thread has its own spec and its own context window, so the TikTok scripts never crowd out the LinkedIn story.
3. Open the Instagram thread and check it loaded lumo-brand-voice.
   The skill you wrote in Lab 6 is now doing its real job: keeping four parallel writers on one voice.
4. When the merged calendar arrives, count the rows and check the dates.
   Ten rows, weekdays only: 1, 2, 3, 4, 7, 8, 9, 10, 11 and 14 December. Instagram 3, TikTok 3, LinkedIn 2, Facebook 2.
5. Read the brand-voice checklist results.
   Every post should pass. If one fails, ask the lead agent to send it back to its thread for a fix.
6. Spot-check three posts against the campaign brief's "claims we must not make".
   Parallel production is fast; a human check on the claims is what makes it safe to publish.
7. Open lumo-social-posts.docx and confirm the copy matches the calendar.
   The calendar is what Lab 10's scheduled task reads every morning.

Check

DONE WHEN social-calendar.csv has ten rows dated on the ten weekdays from 1 to 14 December 2026 — Instagram 3, TikTok 3, LinkedIn 2, Facebook 2 — with the 1 December launch post an Instagram Reel and TikTok on 2 December. Every post passed the lumo-brand-voice checklist, none uses "healthy", every price is written S$3.90 or S$42.00, and lumo-social-posts.docx carries the same copy.

Use only the supplied mock data and your own test accounts. Never put real customer, personal or confidential data into a training exercise, and send lab emails to yourself rather than to a real recipient.
